

SI 1830 CENTRIFUGAL PUMP

Sauermann® part # : SI1830SCUN23

Durable pump

The SI 1830 pump is designed to be easily installed whatever the layout of the premises.

Capable of evacuating up to 400 l/h, the SI 1830 pump is suitable for air conditioning units and industrial refrigeration displays. Strong, the SI 1830 tolerates charged, high temperature and acidic condensates (pH>2) produced by oil condensing boilers.

BENEFITS

High resistance

- Heavy duty IPX4 design
- Oil and acid resistant float
- Mechanical structure resistant to shocks

High performance

- Can discharge condensates up to 3.7m
- Up to 400 l/h, for shorter running time
- Low sound level quiet operation

Installation in any place

Pump can be floor mounted, attached on a wall or stand alone without tank.

Versatile

Easily removable tank and reversible pump, to allow mounting rather on the left or on the right of the application and choosing the side of the water exit.
